

CI-660~CI-6160 (gearless model upon request)

4 to 8 colors, 600 – 1600mm wide CI printing machine

CENTRAL IMPRESSION FLEXOGRAPHIC PRINTING MACHINE

Features:

- Precisely grinded and coated Central Impression drum.
- Dual Wall Drum design with water cooling system to ensure material is smoothly transported and precisely printed.
- Heavy-duty cast metal frame provides a steady and vibration free foundation for excellent printing job.
- Fine printing adjustment device to ensure printing accuracy at each printing station.
- Feed in and out tension control system with synchronized motioning control ensures constant tension during printing.
- Specially designed drying tunnel with blower ensures drying of ink during high speed operation.
- PLC control system with full color user friendly HMI.
- Full servo system with PLC memory module Auto-printing control system can be added to achieve high level automation.

Optional Devices:

- Quick change over sleeve system
- Camera inspection system
- Pre-press equipments
