

PW65~PW100

SIDE-FEEDING DIE FACE CUT RECYCLING MACHINE

Materials to be applied

PE, PP, PS, ABS, Film, Bottle and Sheet.

Features:

- Crushing, extrusion, and pelletizing three-in-one system can save space, reduce energy consumption, and lessen labor costs.
- Vent on the Barrel to evaporate the volatiles from the Recycle Material.
- Die Face water-cooling for easy operation.
- Conveyor material loader provides a safe working environment.
- The Vertical Centrifuges separate and dry the Pellets faster.
- Pressure gauge meter display to maintain good production and operator safety.

Optional Devices:

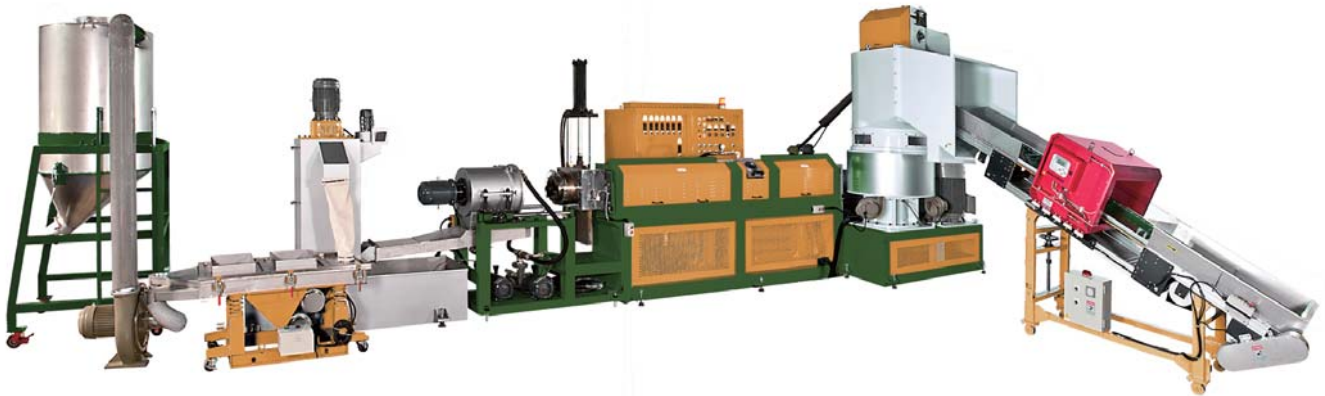

- Second extruder
- Magnetic Metal detector (Made in Germany)
- Water Cooling Tower
- Vacuum Pump
- Chiller
- Non-Stop Screen Changer
- Vibratory Sorting Machine
- Nip Roll Device

| Model | Max. Output | Extruder Main Motor | Side Feeding Motor |
|-------|-------------|---------------------|--------------------|
| PW65 | 130kg/hr | 40HP+AC Inverter | 5HP |
| PW85 | 200kg/hr | 60HP+AC Inverter | 7.5HP |
| PW100 | 350kg/hr | 100HP+AC Inverter | 10HP |

PLASTIC RECYCLE & PELLETIZING MACHINE

PWS85~PWS120

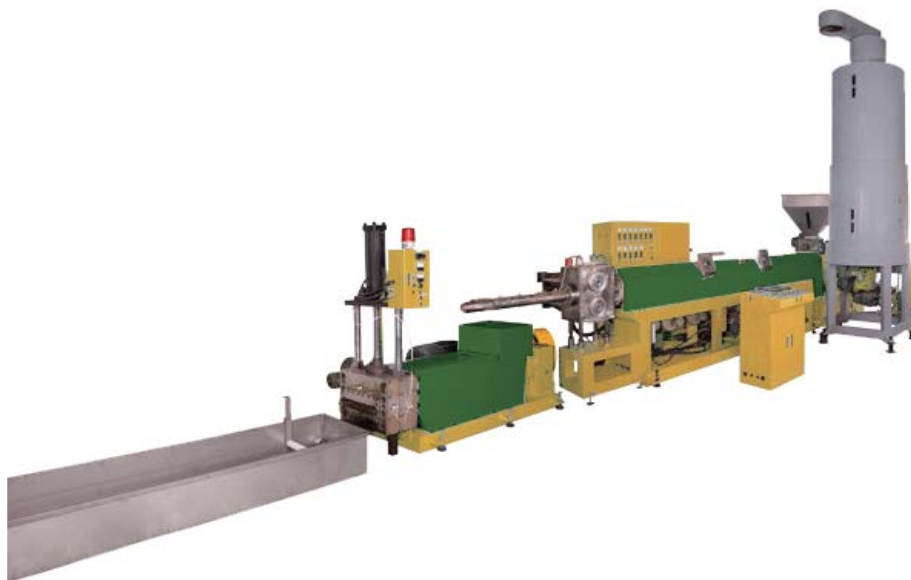

SHREDDING DRUM DIE FACE CUT RECYCLING MACHINE

| Model | Max. Output | Extruder Main Motor | Shredder Motor |
|--------|-------------|---------------------|----------------|
| PWS85 | 220kg/hr | 60HP+AC Inverter | 50HP |
| PWS100 | 350kg/hr | 125HP+AC Inverter | 75HP |
| PWS120 | 500kg/hr | 150HP+AC Inverter | 100HP |

PS85, PS100

SPAGHETTI TYPE WATER COOLING RECYCLING MACHINE

| Model | Max. Output | Extruder Main Motor | Extruder Main Motor | Side Feeding Motor |
|-------|-------------|---------------------|---------------------|--------------------|
| PS85 | 200kg/hr | 60HP+AC Inverter | 25HP+AC Inverter | 7.5HP |
| PS100 | 350kg/hr | 100HP+AC Inverter | 40HP+AC Inverter | 10HP |
